Graded Review Questions

Instructions for Review Questions

- 1. Time allowed: Unlimited
 - We encourage you to go back and review the materials to find the right answer
 - Please remember that the Review Questions are worth 60% of your final mark.
- 3. Attempts per question:
 - One attempt For True/False questions
 - Two attempts For any question other than True/False
- 3. Clicking the "<u>Final Check</u>" button when it appears, means your submission is <u>FINAL</u>. You will <u>NOT</u> be able to resubmit your answer for that question ever again
- 4. Check your grades in the course at any time by clicking on the "Progress" tab

Question 1

1/1 point (ungraded)

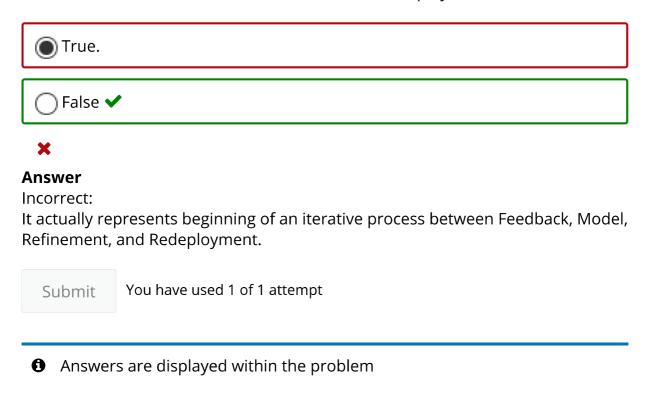

The final stages of the data science methodology are an iterative cycle between Modelling, Evaluation, Deployment, and Feedback.

● True	
○ False	
~	
Submit	You have used 1 of 1 attempt
Question 2 1/1 point (ungraded) Select the correct statement about the Feedback stage of the data science methodology.	
Feedback is not required once launched.	
Feedback is not helpful and gets in the way.	
Feedback is essential to the long term viability of the model.	
None of the above statements are correct.	
Submit	You have used 2 of 2 attempts

Question 3

0/1 point (ungraded)

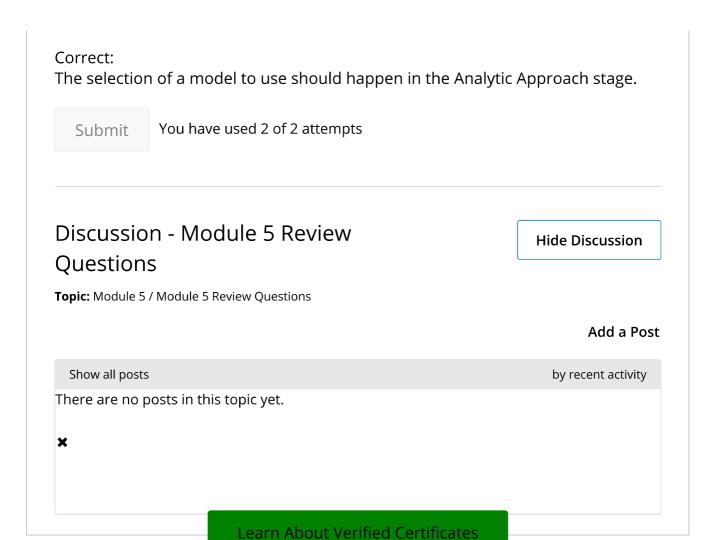

Deploying a model into production represents the end of the iterative process that includes Feedback, Model Refinement, and Redeployment.

1/1 point (ungraded) Select the correct sentence about the data science methodology explained in the course	
The data science methodology provides the data scientist with a framework on how to proceed to obtain answers.	
The data science methodology always starts with data collection.	
The data science methodology is not an iterative process – one does not go back and forth between methodological steps.	
The data science methodology depends on a specific set of technologies or tools.	
Submit You have used 2 of 2 attempts	
Question 5	
1/1 point (ungraded) A data scientist determines that building a recommender system is the solution for a particular business problem at hand. What stage of the data science methodology does this represent?	
Modeling.	
Model Evaluation.	
Analytic Approach.	
O Deployment.
